Creative collaborations across Europe with international designers

We collaborate with designers from all over the world who help us to give shape to our avant-garde products. Their restlessness and sensitivity to aesthetics leads us to readdress established design norms. With them by our side, we break the rules and we look for new ways to express ourselves which can be seen in our knobs, handles and other products. Together we innovate materials, reformulate finishes and create new trends. Their inspiration is an added impulse to us.

Co-creamos desde Europa con diseñadores internacionales

Colaboramos con diseñadores de todo el mundo con los que damos forma a productos vanguardistas. Su inquietud y sensibilidad estética nos llevan a replantearnos lo establecido. A su lado rompemos las normas y buscamos nuevas formas de expresión plasmadas en pomos, tiradores y otros productos. Juntos innovamos en materiales, reformulamos acabados y creamos tendencia. Su inspiración es nuestro impulso.

Small steps for a great cause

We take the health of the planet very seriously as well as the impact of our manufacturing processes on the environment. Our policy of environmental awareness has led us to take measures over the years in order to be more sustainable. Since 2022 we have been working with 100% renewable energy sources and we have significantly modified the materials that we use for our packaging, opting for the use of paper over plastics and non-recyclable materials as far as possible. The ISO 14001 certifies our company as one which has below average carbon emissions.
